#1  
FOLD  
HERE

Some people like to use envelopes when returning offerings to the Lord. This origami envelope is fun and may be completed by most elementary age children with a little help. After a few times they usually can do it nicely.

#2  
FOLD  
HERE

Print this document in Duplex mode (Front and Back). If your printer does not have a Duplex unit print the first page, turn the sheet over and print the back page. When printed, lay the sheet on a table so you can read this text.

Find the numbered folds and tucks. Following the numbers, fold along the lines and / or tuck as directed. If you tuck coins into the envelope, you may need to tape the envelope after the final closing tuck. Have fun!
