TPC liaison: Mike Jalicki

The church is the only hope for a world that is badly broken and is God's instrument to redeem it for Himself.

Acts of mercy are the outworking of God's abundant love in the lives of believers. They are the result of hearts responding worshipfully, actively participating in advancing God's kingdom and not by compulsion to earn His favor.

Deeds of mercy show that the promise of the kingdom is already being fulfilled in the pouring out of Christ's love through the Holy Spirit and they point to the promise of the coming new heaven and new earth.

Service Ministry

Community Outreach

Bringing reconciliation, freedom and hope to those in need in Florence...

Trinity EPC Service Ministry

Mission Statement:

To reconcile our community to Christ by sharing the love of Jesus Christ with non-members of Trinity who are struggling to meet the physical and emotional needs of everyday life.

To **encourage and nurture** those in our congregation who serve and desire to serve the needy by inviting them into action, training and equipping them to help and sharing with them the joy of being a part of the “larger story.”

This is accomplished through active participation in partnerships with local Christian-based organizations that address the needs of the socio-economically disadvantaged in our community.

Trinity EPC Service Ministry Vision Statement:

As we live purposefully in our community we will bring reconciliation to families, classes and races. We will bring **spiritual freedom** to those enslaved to sin, **financial freedom** to those burdened by debt, and **emotional freedom** to those weighed down by the worries of this life. We will courageously engage in the messy work of loving our neighbors well, realizing that the local church is the hope of this world.

How can I serve my community?
