The US Department of Education states "from birth through age 5, children are developing the language, thinking, physical, emotional and social skills that they will need for the rest of their lives." At Unity Preschool we offer a loving and nurturing environment that enhances each of these areas of development, in addition to enriching their lives spiritually. Each age group is provided opportunities to grow and learn through play, music and movement, bible and other teacher directed activities. Goals and standards for each classroom are developed based on information from the US Department of Education, SC Department of Education, SC First Steps, the National Association for the Education of Young Children and other developmental and research based groups.
