Francis Marion University

Francis Marion University is offering a Certificate in Executive Management program beginning in January 2019. The program lasts five months and focuses on five core leadership competencies, including organizational communication and culture, strategic thinking, leadership, business analytics and business intelligence.

This will be the university's second cohort. The first cohort included representatives from OTIS, HopeHealth, ACS Technologies, Carolinas Hospital System, Arbor One, Save-A-Lot, Ingersoll Rand and First Reliance Bank. Most participants said the certificate program provided content applicable to their current positions.
