

Work Continues on the Habitat House

On October 28, a group of clergy and parishioners from Bruton joined with other area churches and Thrivent Financial to build and raise the walls on the Habitat House we're helping to sponsor. Thank you to all who participated that day and on the Bruton Build Day on November 18.

In order to get the family into their home as soon as possible, Habitat will continue working on the house every Wednesday and Thursday until the end of the year. You can volunteer by going to <http://bit.ly/BPCHABITAT> and clicking on the All Events tab. In the drop down menu, choose the Thrivent Builds Bruton Parish Group and then select your date. If there's a waitlist, put your name in, and they'll notify you if they can take more people. You may also contact the Rev'd Lauren McDonald to sign up or ask questions.

Working on the house is a wonderful way to make a difference for a hard-working family in our community, especially in this season when we are particularly thankful for all that God has given to us!
