Schedule of Events

09.25.11 Understanding the Teenage Brain **RODGER NISHIOKA, 6-7:30 P.M., FIRST PRESBYTERIAN**

Explore why teen brains are ruled by emotion and adults by logic; pinpoint how to help your teen thrive during a time of complex neural development; and discover how you and your youth can improve communications and open channels for feedback. This fascinating seminar will be led by a noted Columbia Seminary professor.

11.20.11 Re-Wired **CROSKEYS ROYALL, 6-7:30 P.M.** **COVENANT PRESBYTERIAN**

Explore the tsunami of messages, ideas and instant communication that is transforming your teen and society as a whole. Learn the right way to partner with your child in navigating social media.

02.10.12 Almost Christian **KENDRA CREASY DEAN, 7-9:30 P.M.** **MYERS PARK PRESBYTERIAN OUTREACH CENTER**

Take a look at why many youth feel Christianity does not make a difference. Together we will examine how to move from the “gospel of niceness” to a passionate faith, ridding ourselves of a shrink-wrapped Christian identity and truly living the gospel.

04.15.12 Faithful Families **MARK DEVRIES, 6-7:30 P.M.** **PROVIDENCE PRESBYTERIAN**

Discover why the real measure of your youth's faith is not attendance, the number of "mountaintop experiences" or sheer zealotry. Instead we will discuss how to build a partnership between teen, family and church—the foundation of a lifelong, mature faith.
