

108 billion...

That's a large number...

What kind of number is it?

It's the number, the experts say...

Of the human beings who
have ever lived on the earth...

Of the human beings who
have ever lived on the earth...

...since the beginning of
time...

108 billion lives...

108 billion births...

So ordinary...

So ordinary...

...so common...

So ordinary...

...so common...

...108 billion times...

But so extraordinary...

...every time...

...108 billion times...

And one time...

A girl...

A girl...

...a “yes” ...

A girl...

...a “yes” ...

a birth.

The extraordinary
revealed in the
ordinary.

Black Madonna

A changed world...

A changed world...

...and one changed life...

Blue Madonna

Yours.
