

Friends of Habitat at St Stephen's,

Weather permitting, the official dedication of this latest Durham Habitat home will be on Sunday, February 21st, starting at 1:00PM. Clergy from the different congregations will participate in an event that promises to be as noteworthy as the October 18th kick-off. Come and see what you have helped accomplish in this first-of-a-kind interfaith "build"!!

Thank you, again!

Dean

The latest postponements are outlined in the email appended below from Rebecca Hix, the Habitat coordinator for this house. Notice that the wrap-up work has been moved to February 13th & 14th **and** that the Dedication has been moved to Sunday, February 21st.

Dean McCumber

Dear Friends in Faith,

Ok, I need each and every one of you to pray that we will have no more winter weather after what we are suppose to get this weekend, because it's getting in the way of the Rahlan-Sui family moving into their home!!

We will NOT be working this weekend and will be postponing the dedication. This week's weather has made it impossible for the necessary subcontractors to get in and do their work. That in combination with the anticipated weather, means we do not have meaningful work for volunteers this weekend (Feb 6th & 7th)..

However, we need REALLY volunteers the weekend of Feb 13th and 14th.

Saturday, February 13th

- We will be having 1 shift from 10am - 3pm
- We will be doing landscaping, painting touch-up, and any other interior finish work necessary.
- **We could use 12 people (total, from all participating congregations) on Saturday.**

Sunday, February 14th

- We will be having 1 shift from 11:30am-5pm
- We will continue our work from the previous day, concentrating on work that is quiet.
- **We could use 12 people (total) on Sunday.**

Sunday, February 21st

DEDICATION – The dedication is now planned for Sunday, February 21st at 1pm. Roxanne and I are working on the agenda and will reach out to a few folks about their roll in it. Please start messaging to everyone that the date has changed and we really want them to come out. Also, as a FYI, if the house is completely ready with a certificate of occupancy the Rahlan-Sui family is going to move in. Our dedication date will not keep them from moving into their home!

Thanks for your patience with the ever changing schedule and don't forget to pray for the right weather!!

Peace,

Rebecca
