

Even more reasons to experience Summer Music Live!

Singing psalms, hymns, and spiritual songs is a biblical mandate for teaching and admonishing each other in the body of Christ.

(Eph 5:19, Col. 3:16).

“God gave us music that we might pray without words.” *Unknown*

Brain scan research studies show that music more fully involves brain functions (both left and right hemispheres) than any other activity. *Dr. Frank Wilson, University of CA School of Medicine, San Francisco.*

A ten-year study indicates that students who study music achieve higher test scores, regardless of socioeconomic background. *Dr. James Catterall, UCLA.*

“Music students out-perform non-music students on achievement tests in reading and math. Skills such as reading, anticipating, memory, listening, forecasting, recall, and concentration are developed in musical performance, and these skills are valuable to students in math, reading and science.”

B. Friedman, "An Evaluation of the Achievement in Reading and Arithmetic of Pupils in Elementary School Instrumental Music Classes," Dissertation Abstracts International

“Music, unlike sports, is a gift you can give your child that will last their entire lives.”

Unknown

If you have any questions, please call the children’s music department at SGPC at 359-7770 for Lee Ann Alexander (ex. 42) or Lori Lowman (ex. 28).

July 12-16, 2010

SML

Summer Music Live

SAXE GOTHA PRESBYTERIAN CHURCH
5503 SUNSET BLVD. • LEXINGTON, SC 29072

Music implants scripture and biblical truth in the heart and mind of a child through rhythm, rhyme, and repetition. When these three elements are used to learn information, the information becomes “locked in” the brain, so that it can be remembered for years to come.

Recorder

Learn the basics of playing the recorder. Bring a recorder from home if you have one or borrow one at camp.

Super Singing Skills

Learn some basic singing skills and how to read simple music notation in a fun way! This class is guaranteed to improve your skills!

Mallet Instruments

Learn to play cool xylophone type instruments that make all kinds of sounds. Explore lots of different instruments and learn to play as a team. A big hit with active kids! This is a listen and play class.

Organ Exploration

This will be a "hands on" class with our very own church organ. You will learn all about the parts of the organ and all the cool sounds that the organ can produce. There will be 2 levels of organ offered: one class for students with no piano background and another for students with piano background.

Scrap Booking

Take Scrap Booking to a whole new level with exciting new ways to display your photos! This is not your ordinary scrap book class. If you love to scrap you can't miss this class. Great class for creative kids on the "cutting" edge!

Tone Chimes

Learn how to play tone chimes by following music and playing melodies and chords to hymns and fun songs. No experience needed! This is a read and play class.

Creative Movement

Explore and express the meaning of contemporary Christian songs through movement and sign language. This fast-paced class is perfect for those who love to dance! You will even experiment with the latest fad in computerized Christian dance—"Dance Dance Revolution Pads"

Drama

Have you ever wondered what it would be like to pretend to be someone else? This is your chance to try your hand at acting out various skits!

Guitar

Learn guitar basics and simple chords. Guitars will be provided. This is the perfect opportunity to try your hand at the upcoming craze in Christian praise music. Two levels of this class are being offered this year.

Music Writing

This brand new class will provide children with the tools they need to compose their own unique songs based on scripture or a Christian theme. Students will experiment with lyrics, melodies, rhythms, and chord patterns to create their song. Class is limited to the first 12 rising 3rd through 5th graders only.

Boomwhackers

Boomwhackers are brightly colored plastic tubes that are tuned by length to musical notes. They are easy to play and loads of fun!

Videography

Learn how to take digital pictures of camp and turn them into a really cool video! This class will involve working with cameras and computers to put a project all together! This class will be limited in numbers and will be assigned on a first come first serve basis so sign up early. (This class is open to the first 12 registered rising 4th or 5th graders only.)

details . . .

WHO:

Music Camp is for all children who have completed grades 1 through 4 and have a definite interest in the arts. (Rising 2nd-5th graders for the 2010-2011 school year)
