The Bible gives us our clearest picture of who God is and how we are to relate both to God and to each other. The Bible can be difficult to understand, though. Since it was written so long ago, it's not always easy for us to enter into the world of Bible stories or to grasp their purpose for being written.

In order to help people of faith and people exploring faith to gain a rich understanding of Scripture and how God's Word can transform our lives, Bible study classes at UBC explore the historical background and context of Bible stories as well as their content. Our goal in Bible study is not just gaining information, but spiritual formation. Spiritual formation is the process of being shaped in the image of Christ by the gracious working of God's Spirit, for the transformation of the world. Now that's a reason to get up on a Sunday morning
