**The United Nations and Global Affairs Committee (UNGAC) of the
Community Church of New York Unitarian Universalist
Presents its United Nations' Day Anniversary PROGRAM**

**Topic: "Big Changes Loom for the UN, United States, and
World Economies: The Crises Deepen"**

From economic crises and turmoil in old capitalist economies—North America, Western Europe, and Japan—to rapid economic growth in China and India—enormous changes are shifting the balance of economic and political power. Can capitalism as a system accommodate these shifting balances?

You are cordially invited to hear and respond to Dr. Wolff's presentation and analysis

on

UN SUNDAY, October 22, 2017

Doors will open at 12:45 for the 1:30 pm Program; \$10 and larger donations will be accepted at the door.

The UNGAC is sponsored by www.ccnny.org and is an affiliate of the UU-UNO. Dr. Wolff will be introduced by George Duckett, with a Q & A from UN members, NGO representatives, and active audience participation. Our moderator is **Dr. George Garland**, UNGAC Chair.

Keynote Speaker: Dr. Richard Wolff, Renowned Economist

Our keynote speaker is Professor of Economics Emeritus at the University of Massachusetts in Amherst, and Visiting Professor at the New School's graduate program in International Affairs in New York City. Prof. Wolff was educated at Harvard (BA in History); Yale (MA, His./Ph.D., Economics; and Stanford (MA, Economics). The numerous published materials of Dr. Wolff challenge the conventional wisdom that capitalism is the ideal framework for the political economy. His writings include: *Occupy the Economy: Challenging Capitalism*; *Capitalism Hits the Fan: The Global Meltdown and What to do about It* (also in a DVD); and *Democracy at Work: A Cure for Capitalism*, among many others. Prof. Wolff has concentrated on analyzing the causes and alternative solutions to the global economic crises. In 2010 Dr. Wolff decided to put his economic theories into action and co-founded Democracy at Work (RDWolff@att.net; contact Betsy Avila: betsy@democracyatwork.info). This is a project that aims to build a social movement and society whose workplace is more equitable, sustainable, and democratic. The UNGAC's celebration is a unique and wonderful occasion to meet Dr. Wolff and to discuss the deepening crises in our global and UN system.
