

REMINDERS

We are coming in to the Cold and Flu season and little ones love to share things, including their germs!! Below are the symptoms your loved one will need to be free of before returning to preschool:

No fever within the last 24 hours

Severe cough or phlegm-producing cough

Thick, colored nasal discharge

Sore throat with fever or swollen glands

Must have been on antibiotic for more than 24 hours

Cannot have three or more watery stools in a 24 hr period

Body Rash

Chicken pox sores that are still infected

Thick mucus or drainage from the eyes

No vomiting in the last 24 hours

If your kiddo isn't acting himself/herself or needs some extra loving that day, it is usually best to keep them at home with you and give them that extra time together.
