

It's Not ROCKET SCIENCE...

You just need to love kids!

Seeking POWER LAB Volunteers

...to help lead our young Scientists through a fun-filled 4 days of Vacation Bible School at Front Street United Methodist Church. This year our VBS is themed "Power Lab, Discovering Jesus' Miraculous Power" by Group VBS. At Power Lab, kids will be surrounded by crazy, surprising, wacky science stuff.

For those of you unfamiliar with Group VBS the format is as follows:

4 days (July 28 – July 31, 2008) from 9:00 a.m. – 12:00 Noon

During those three hours each day, groups of children will rotate through six different areas (music, sports, arts and crafts, video, storytelling and snacks) learning valuable lessons about God and His son, Jesus.

We are currently looking for those that may be interested in volunteering in one of the following areas:

- ✓ Preschool
- ✓ Music
- ✓ Arts and Crafts
- ✓ Sports
- ✓ Video
- ✓ Storytelling
- ✓ Snack Preparation
- ✓ Decorations

Our goal is to have two leaders per area. If any of these areas spark an interest, please contact us by **May 18th**.

It is guaranteed to be a fun-filled week sharing God's love with our precious youth!

Come join the fun!

If you have questions, or want more information about volunteering opportunities, please give us a call.

Thank you!
