Life of Joseph Pain in Development

Anything worthwhile pursuing takes hard work, pain, sweat, and tears because you are trying to get to a place you have never been before. When the instructors are developing you to reach the next level, they will pull stuff out of you that you didn't know were in you; so you can be all that you can be. There is pain in development.

Background: Genesis 39:10-12, Mrs. Potiphar tried to entice Joseph to sleep with her daily for a while. Joseph did all he could to avoid her. Mrs. Potiphar indirect approach was not working, so she tried the direct approach and grabbed Joseph saying come to mamma.

Scriptures are coming from Genesis 39:13-23
