FROM THE HEALTH ADVISORY PANEL

GUIDELINES FOR CHOIR REHEARSALS

Bishop Haynes, in conjunction with the Diocesan Health Advisory Panel, is now easing restrictions so as to permit choirs to rehearse indoors under the following conditions:

- Singers should wear singers masks
- Singers should remain physically distanced at six feet.
- While rehearsal times do not need to be limited, breaks should occur every 30 minutes to allow for fresh air and for ventilation of the rehearsal room.
- All attending the rehearsal (except for those with a medical exception) should be fully vaccinated.

REGARDING CONGREGATIONAL SINGING: Congregational singing is permitted outdoors for members who are wearing masks. **Congregational singing indoors is not yet authorized.**
