

OUR PARTNERSHIP  
WITH THE PEOPLE OF **HAITI**

**MISSION FOCUS FOR SEPTEMBER**

Christ Church has a long-standing partnership with Haiti. After the devastating earthquake in 2011, we answered the call to help and so began a long and beautiful relationship with St. Marc's Episcopal Church and the people of Lilevoix, Haiti. We've sent mission teams, provided financial support, offered them up in continuous prayer, sponsored village-wide VBS, and even hosted their leaders here in Glen Allen.

**THIS YEAR ALONE, YOUR GENEROSITY HAS PROVIDED**

safe drinking water by providing vital repairs to the water system

medical help & supplies

God's love being shared to children through VBS

# MEDICATION DRIVE

## FOR HAITI

A group of Richmond doctors, dentists, nurses, and other helpers travel to Haiti each year. They set up in a small town, Angouman, where people travel long distances just to get a little healthcare. Haiti is a devastatingly poor area and is still struggling to recover from the terrible earthquake that hit there. **This team helped 1100 students and villagers on their trip last year.** They are returning for yet another pop-up clinic and will be taking suitcases full of medical supplies to leave there.

*From Cathy Taylor, organizer:*

“One of the problems they have is you cannot just mail medicines there. If on a good day the mail would get to Haiti, it would be stolen as soon as it gets there. To get around this they pack numerous suitcases and take the medical supplies with them. We donated a good amount of Omeprazole (generic for Prilosec) and Advil last year but it was gone in the first hour. Their diet is not what we are used to and they have horrible heartburn/indigestion problems that then lead to other issues. I thought it might help if we could gather more for them over the next couple months to take. They will start packing Mid November to leave for Haiti the end of November. **If you would like to join me in my goal to fill an extra large suitcase for them with the generic Omeprazole (you can get a pack for \$13.00 at Costco) and Iron supplements, I would truly appreciate your help.**” - Cathy

**BRING YOUR DONATIONS TO THE MILLING AREA OCTOBER 21 - 29**
