

## April Newsletter

### Three Year Old Classes

We will kick off the month of April with an exciting unit on **transportation!** We will introduce different ways to get around. We will talk about what flies in the sky, drives on a road, floats on the water and rides on a track!

Some transportation crafts include making trains from shape cutouts and painting with Lego cars.

We will challenge our little one's reasoning skills by asking questions like, "Can you take an airplane to school?" and "Can you drive a car to the moon?" We will do a science experiment to determine what floats and what sinks.

Some of the stories we will read are written by Byron Burton and Gail Gibbons. . .

*Planes, My Cars, I Wish I Were a Pilot, Down by the Station, & Boats*

Each class will have a Spring Party. Party sign up sheets will be available soon.

Our spring break is April 15-19.

Enjoy!
