

December is upon us! “Dd” is for December! We will cut, decorate and discuss the “Dd” sound. This month the children will learn all about the five senses. We will do holiday activities to showcase these senses and learn how each one is significant in our daily lives.

We will be filling the children with tons of holiday cheer! Festivities will start with learning some Christmas songs. The children will make ornaments to bring home and display on their tree along with other holiday crafts and gifts for the family. During story times, we will be reading holiday classics such as the “Polar Express”. We will also have a countdown to this joyful time of year!

****As the colder weather approaches please send your children in with warm clothes because we still go outside when we can. This includes, mittens, hats and boots.****

We wish you a safe, healthy, and joyful holiday season!!!!
