

This month we are all about Valentine's Day! We will work on the letters H, L, O, V, and E. Valentine's Day is celebrated in a fun way at St. Peter's. We will make and exchange valentines. We will have a Valentine's day celebration.

Where do we live? Each child will be learning their address this month. We will use a variety of shapes to create our own colorful houses.

Will there be six more weeks of winter, or will spring arrive early? We will talk about the groundhog's prediction and hear a story about a groundhog that could not sleep. We will speak about shadows and reflections.

Towards the end of the month, we will be starting our Wood Working Unit. We will discuss shapes and even become shape detectives! We will work on math skills while we become architects with the creation of our very own wood sculpture.

We will also discuss and experience the weather of winter too! It is always fun and exciting in Pre-K 4!

Have a wonderful February Break – February 15<sup>th</sup> & 16<sup>th</sup>

Mrs. Rogers and Mrs. DeFuria
