

This month we will be celebrating Groundhog Day and Valentine's Day! Will there be six more weeks of winter, or will spring arrive early? We will read Groundhog Day stories and give facts about the day! The children will make predictions whether the groundhog will see its shadow! We will talk about shadows, and then make our own!

Each child will focus on their last name this month. We will work on recognizing the first letter of our last name and gradually move to our full name!

Valentine's Day! L is for Love! We will be working on the letter L this month. The children will be making and exchanging valentines with their classmates! We will be celebrating this special holiday with a Valentine's Day party! Each class will take a short walk to the mailbox to mail a valentine to their families! More information will be coming on this exciting walk! This will also lead to an introduction of our addresses.

Opposites! Books on opposites will be read and we will also act them out! We will be creating class opposite books where the children will act out opposite pairs!

Enjoy your February Break - February 21st & 22nd
