

January Newsletter

We hope everyone had a safe and fun holiday break! We will have a Christmas show and tell. This will allow the children to share and communicate with one another. We are bringing in the New Year with our unique New Year's Resolutions. This will accompany some fun winter learning. Winter science is an exciting way for us to bring cold elements of nature into the classroom.

The children will learn about penguins and how they survive. "Jj" is for January! The children will cut, decorate and discuss "Jj" sounds. We will finish the month strong with a lesson on shadows in anticipation for the ground hog.

There will be no school on Monday January 17th.

****As long as the weather outside is above 32 degrees the children will be going outside, so please pack your children with hats and mittens each day labeled with their names.****
