

March Newsletter PM 4's

Welcome March!

We will be busy during the month of March. Our month will begin with the children putting their finishing touches on their wood sculptures. We will be having a virtual museum to showcase their hard work. Details will be coming soon.

We will also be learning about opposites. The class will generate a list of opposites and then choose their favorites to play out. We will be taking photos along the way and create a class book that will circulate to each family home.

“Mm” is for March! We will explore this letter and the sound it makes. We will practice cutting, writing, and recognizing the letter Mm and generate a list of things around our school that begin with this letter. We will also learn what is meant by the month of March coming in like a lion and going out like a lamb!

Our class will be having some St. Patrick's Day fun! Those silly leprechauns always find their way to St. Peter's and provide us with some fun surprises. Always a fun day! The children will also use their scientific thinking skills as we explore some rainbow science experiments!

March will also provide us with the opportunity to discuss your child's progress as we hold our spring conferences. The date of our conferences will be Wednesday, March 24th. There will be no school for the children on this day. Sign up times will be available soon.

We are looking forward to getting outside and playing each day. Please check the weather each school day so that your child is prepared and comfortable for the unpredictable March weather.

Mrs. DeFuria
