

## May/June Newsletter –Four Year Old Classes

Spring is in the air! How nice for us to be back outside enjoying our playground and the sights and sounds of spring.

We begin this month by taking our class trip to the Montclair Art Museum to culminate our Unit on Art. The children are so excited to ride the big yellow bus with their classmates!

We will also be celebrating our “Mommy’s” at our Mother’s Day Tea. We will spend time talking about our moms, learning fun songs, reading stories, and working on some awesome surprises for mom for this extra special day!

We are also eager to begin some exciting new units of study. We will be learning about chicks as we will have a visit from a real farmer who will deliver an incubator with actual chick eggs. We will discover the life cycle of a chick, make predictions, and hopefully have front row seats to the eggs hatching!

We will have fun exploring the ocean as we begin a unit on life in the sea. We will talk about beaches, salt water, and many interesting aspects of sea life!

The children will hear one of our favorite stories, “Harry Hoyle’s Giant Jumping Bean”. We will learn all about Harry’s collections and have a collections show and tell of our own.

We will celebrate our end of the school year with our class picnics. More details will be provided soon.

What a wonderful year it has been! Thank you for sharing your wonderful children with us!
