

November is a very exciting month! We will go on our nature walk on November 1st. We will have a scavenger hunt and look for items at the oval and on our playground.

We will also begin our Lenape study! We will discover and learn many interesting things about the New Jersey Lenape people. They had many fascinating observations of nature and very interesting practices and teachings!

Thanksgiving is also in the month of November! We will discuss what it means to be thankful and what it means to give. We will have a special celebration too!!!
