

September/October Newsletter

3 ½-year-old classes

Happy Fall to our families! The children are off to a great start within our classrooms! Every day the children become more comfortable within their classroom environment. We have spent the beginning weeks of school learning about our classroom, where things belong, and rules that keep us safe. We have also explored emotions, friendship, sharing, and problem solving in the classroom. These early lessons will continue to be reinforced everyday throughout the school year.

As we begin the school year, each class will assemble a class book to get to know our fellow classmates. This class book is a great way to sit with your child and share fun information about their new classmates.

Getting to know about each member of our class is an integral part of our curriculum as we will take our time to learn about our families, favorites, and how we are the same and yet different.

As the month of October moves along there will be excitement in the air, as we will look forward to celebrating Halloween. Literature, art, and music will enhance this festive time of year. We will have a Halloween show and tell with each child bringing in one piece of their costume to allow for a guessing game. Each child will use their language skills to present their costume piece and have their classmates guess what they are going to be for Halloween. We will have a special snack for our celebration, please look for the sign-up snack sheet for the holiday.

Music will begin in October with our favorite music teacher Ms. Donlin.

Have a Happy Halloween with your child and enjoy the season of Fall!
