

Happy New Year! What a great Holiday we had. Now we are ready to jump into this year with so many new learning activities and interactive themes. J is for January, and we will explore this letter through wonderful winter activities.

We started our year off right with our "Holiday Show and Tell". We love talking about all the new gifts we got and how excited we are to use them! We were also welcomed to bring pictures and stories of memories made with family and friends.

The Winter season brings us so much to enjoy including new resolutions, snowmen, and all of the season's beautiful characteristics. We will continue to learn through play that brings us closer to all that winter has to offer, especially the wonderful world of penguins and their interesting habitat. It's so interesting the way in which they work together, play together, and live together. Stories, pictures, and hands-on activities will aid in these themes to assure we embrace these amazing subjects and season.

Our writing and comprehension will continue with practicing learning the recognition of our last names. We will sign in with last name visual cues and even practice writing the letters just like we have with our first names last year.

Music will continue with Ms. Missy! Ringing in this year with all this fun, will create a month filled with classroom joy.

Happy New Year,

Mrs DeFuria, Ms. G
Mrs Grasso and Mrs Rogers
