

#### 4's November Newsletter

The month of November is a very exciting month for Pre-K! We begin our Lenape study! They lived in New Jersey many, many years ago. We will discover how and where they lived, how they traveled, what they ate, their many traditions, what it was like growing up in a Lenape village, and what they believed the earth was.

The Roseland Environmental Center is coming to our school! They will show us many things about the Lenape people.

We will prepare for our Thanksgiving feast. We will discuss what it means to be thankful.

We will speak about what is happening outside. How our weather is changing. We will go on a nature walk to see what is happening in nature. We will have a "nature scavenger hunt" too.

November is a short month, but we have many exciting things happening!!!
