

October Newsletter
Four-Year-Old Classes

We are off to a great start! The children are doing a great job transitioning to their new classrooms and making new friends.

October is a fun-filled month in our four- year old classes. We will start the month talking about the letter "Bb". "Bb" is for bat and many other things that we will find around our classrooms. We will spend time learning about bats. We will read "Stellaluna" as an introduction. We will learn about echolocation and how bats are nocturnal. We will make some bats of our own to create a nighttime scene.

We will take time to appreciate the trees on our playground and how they are changing color. We will make patterns using leaves, learn why leaves change color, and make leaf prints from leaves collected while playing.

We will have some fun with pumpkins. We will do some pumpkin science, read some great stories including, "Spookly the Square Pumpkin", carve a pumpkin, and make some very- creative pumpkins of our own for a class pumpkin patch.

The children will enjoy many Halloween stories and related crafts. We will have a special show and tell where the children bring in one piece of their costume for a guessing game activity.

October is a busy month at St. Peter's! Wishing you and you families well!

Mrs. DeFuria, Ms. G, Mrs. Rogers, and Mrs. Grasso
