

## 200 DAFFODILS PLANTED AT YOUR HOME Courtesy of NorthEast Properties

Symbolizing winter's end, rebirth and new beginnings, the daffodil is synonymous with spring. In England, long associated with Lent, daffodils are known as the "Lent Lily." In Wales, it's said if you spot the first daffodil of the season, your next 12 months will be filled with wealth, and in China, if a daffodil blooms, it will bring good luck to your home. Most importantly, daffodils are widely recognized as the flowers symbolizing friendship.
