

Health and Safety Parent Protocols and Commitments

Before arriving at school:

I will check my child(ren) DAILY for:

- Fever/temperature of 100.0 or greater
- New or worsening cough/shortness of breath
- Diarrhea and/or vomiting
- Fatigue/muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat/congestion

If my child has any of these symptoms, or anyone in my immediate family is exhibiting symptoms commonly associated with COVID-19, my child will remain at home and opt into our virtual learning program. I will call/email the school office to report the absence. If no one in the household has been exposed to a positive COVID-19 case, my child may return to school 24 hours after they or applicable family member no longer has symptoms.

COVID-19 Exposure Guidelines:

- I will isolate my child(ren) at home as may be necessary following the Exposure Guidelines articulated in the Return to School Action Plan.

Parent Drop Off

When dropping my child(ren) off at school:

- I will remain with my child(ren) in my vehicle until supervision arrives at 8:05am.
- 3K and 4K children will be dropped off outside of the Parish Center doors where teachers will meet them outside.
- I will remain in my car while dropping off my 5K-8th grade child at the north door.
- I will ensure that my child(ren) are wearing masks before leaving the vehicle.

Parent Pick up

When picking up my child(ren) from school:

- I will remain in my car and allow my child to open the vehicle door.
- If my child is unable to open the door and buckle, I will park in the west parking lot and wait near the cones by the cemetery for my child to exit the building.

All protocols above will be consistently reviewed and updated based on local, state, and national information and guidance. Updated parent protocols and commitments will be communicated via email/School Messenger.
