#### **HOGAR INFANTIL**

Nestled in the foot hills of central Chiapas and overlooking a broad valley is a small island of hope surrounded by a sea of suffering and poverty. This place is known as **Hogar Infantil** and is home to approximately 80 children. They come from many diverse situations; poverty, abuse, death of a parent, neglect, or inaccessibility to education. Their hope comes from **Hogar Infantil** a children’s home that provides a nurturing environment where they may live, grow, and realize their dreams. Through education they will be given the tools to become healthy, independent, and productive citizens thus breaking the Cycle of Poverty that has plagued their lives.
