

STM SPACE CAMP

Come join us for a week of space exploration. Learn about NASA's space program: past, present, and future. Participants will work as teams to design and construct projects such as moon buggies, robotic arms, airbag landing systems, and model rockets.

Possible schedule:

Mon.	History of the space program
Tues.	Return to the Moon
Wed.	Mission to Mars
Thurs.	Morehead Planetarium
Fri.	Model rockets

Who can come?: Rising 5th and 6th graders

When is it?: July 7 – 11 from 8:30 to 11:30

Where is it?: Upper School science lab

What is the cost?: \$170.00 per participant

Snacks will be provided each day.

Presented by Karen Kingrea – 7th and 8th grade science teacher
