

Pre-Kindergarten - 4 Year Old

The day is divided among small group activities and various learning centers as well as attending special classes. A thematic curriculum will be the foundation for learning and integrating studies and activities. The Letter/Sound of the Week is consistently used as an organizational device to create a focus. Each grade level stresses individualized instruction, differentiating to meet each student's needs. Integrated technology instruction uses a variety of websites, computer software, & TV/DVD programs to educate students with 21st century skills.

Group Activities Include:

- Christian Education
- BELLS-(Building Early Language Literacy Skills) is an assessment instrument that quickly measures how well a child is progressing in the specific early reading skills which are most highly predicative of reading success.
