Purchase a chance to have the opportunity to own this six room Victorian dollhouse created and furnished by Mary Lou Price

This masterpiece will last for generations and has a tower sewing room, two bedrooms, a music room, bathroom, kitchen, and parlor/dining room. The rooms are wallpapered and have molding and baseboards. There are even lace curtains in the windows. Girls will treasure this and will pass this along for generations to come. This is a great gift for young girls as well as collectors.
