

# Financial Solution

Management Goals **Reliable Financial Data**  
Consolidated Financial Reporting  
**Standardized Chart of Accounts**  
Financial Strategy Implementation

## Streamline Your Financial Reporting

*Timely and accurate financial reporting is essential to the operation of a healthy diocese. Your ability to identify and address financial issues as they arise hinges on the availability of reliable and timely data from your parishes. Financial accountability begins with reliable accurate data.*

*With over 8,000 Catholic clients, we understand how important accurate finances are to the success of your parishes and diocese, which is why we developed PDS Financial Solution™. The PDS Financial Solution combines a reporting tool for parishes with an application for the Diocese to receive and consolidate the reports for easy review and analysis.*

**The PDS Financial Solution™ empowers you to receive accurate data faster and focus your efforts on analysis instead of data gathering.**

### **DioView**

PDS DioView™ provides the capability to consolidate chart of accounts or to filter a specific account for analysis.

### **DioView Server**

DioView Server is the staging mechanism for parishes to submit financial data and for dioceses to collect financial reports. This is provided as a hosted offering from PDS. Churches and the Diocese are provided a secure address for the exchange of files.

### **Ledger**

PDS Ledger™ is a complete accounting solution that provides the ability to manage chart of accounts, transactions, and financial reporting for parishes.

### **Ledger/Payroll**

PDS Ledger/Payroll™ is the combination of PDS Ledger with the addition of a complete payroll function that helps parishes and schools track employee expenses and reports, including calculating federal, state, and local taxes.

### **Quickbooks™ Interface**

Use Intuit® Quickbooks Pro or Enterprise Edition with this Interface to submit financial reports from Quickbooks to DioView.

### **Forms and Supplies**

PDS Forms and Supplies such as checks and check scanners are conveniently available and guaranteed compatible with PDS software.

**We have a solution for you.**

# Financial Solution

Inside Your Church

Inside Your Diocesan Office

The PDS Financial Solution combines an easy reporting function from parish's ledger with an application for the diocese to consolidate the parish reports for easy review, filtering, and analysis.

## Hosting Services

Hosting Services are available to provide internet access to applications at the parish, school, or diocese.

## Implementation Services

Implementation services are offered by PDS trained and certified implementation specialists and include project management, training, and consulting to ensure parish and diocese goals are effectively accomplished.

## Backup Recovery Services

LiveStor™ protects all valuable data by performing scheduled file backups according to customized criteria. Data is securely transferred over the Internet to a PDS remote location so parishes and dioceses can have peace of mind.

**We have a solution for you.**
