

Diocese

DioOffice™ synchronizes family contact information and uploads member information among parishes, schools, and the diocese.

- Collect family records electronically and automatically populate your database
- Review submitted data and accept or reject changes
- Manage contacts, pledge entries, statuses, and support mail campaigns

DioOffice Server™ connects Church Office and School Office with DioOffice.

- Exchange and synchronize family data
- Upload member data

Development Connection™ with DioOffice Server™ synchronizes data between your parishes and The Raiser's Edge™ database at the diocese.

DioView™ streamlines financial reporting between your parishes and diocese.

- Gather financials more frequently
- Consolidate chart of accounts or filter a specific account
- Maintain church accounts in one master chart of accounts

DioView Server™ connects PDS Ledger and Intuit® Quick Books® Pro with DioView.

- Upload financial reports

Church

Church Office™* streamlines the management of your parish office.

- Keep families informed, active, and connected
- Provide online church registration
- Track and record all aspects of fundraising
- Review personal outreach and growth development

Formation Office™* easily manages the details of religious education programs.

- Access student and catechist information quickly
- Track, analyze, and report on a variety of data
- Schedule classes and prepare mailings
- Coordinate, track and record dues, payments, and credits

Ministry Scheduler™ helps you coordinate and assign ministers for various liturgical functions.

- Assign up to 1,000 ministers and 15 ministry categories
- Accommodate ministry preferences
- Synchronize data with Church Office

Facility Scheduler™* enables efficient scheduling of rooms and equipment.

- Schedule events for all your facilities
- Monitor fees required, paid and owed
- Store detailed contact information
- Create automatic scheduling and billing reminders

School

School Office™* simplifies the administration of your parish school.

- Track all the details from discipline to financials
- Automate billing, attendance, grading, and reporting
- Streamline communication efforts
- Customize reports to fit your needs

Chalksite™ connects teachers, parents, and students outside the classroom

- Create class-level Web sites
- Use online teacher gradebooks
- Post assignments and use discussion boards
- Export term averages to School Office

HeadMaster® Software provides key administrative functions for Catholic high schools.

- Manage student, teacher, and parental information centrally
- Record when children check-in and check-out
- Automate class-scheduling, attendance, grading, and reporting
- Customize reports and data fields to fit your needs

HeadMaster ProCM adds a valuable Classroom Manager interface for teachers to HeadMaster Pro.

HeadMaster Billing manages payments and provides multiple ways to monitor outstanding accounts.

HeadMaster Online enables staff, faculty, and parents to go online to view their children's assignments, grades, and progress.

HeadMaster OnDemand is an affordable, low maintenance hosted school administration solution that provides users anytime, anywhere access to all the school's operations.

Financials

Ledger™ provides a full accounting solution for your parish or school.

- Comply with IRS and FASB requirements
- Use cash or accrual rules and print balance sheets and income statements
- Enter monthly, quarterly, or yearly budgets for each income and expense account

Ledger/Payroll™ incorporates payroll management into Ledger.

- Calculate federal, state, and local taxes
- Print paychecks from your computer
- Produce a variety of federal reports and forms

**These programs seamlessly integrate to save time and standardize data entry.*

Services

PDS OnDemand™ provides you with anytime, anywhere access to all your PDS applications in a worry free network. Rather than residing on your desktop, your PDS software and its contents resides at ACS Technologies® providing you access to your applications from the Internet while keeping you on the latest version in a secure environment.

- Perform the same functions of your desktop software over the internet
- Increase data security, decrease IT expenses
- Grant remote access for people to work outside the office
- Receive automatic updates and backups

The Extend Platform™ enables you to manage your Web site regardless of your technical background with an easy-to-use content management system.

- Keep up with your content using content libraries
- Maintain structure with a defined editorial process
- Assign user permissions to maintain security
- Edit your Web site from anywhere online

Web Site Management helps you assess your current Web site, migrate to Extend, and/or design a new Web site.

Services (Continued)

Forms & Supplies helps you quickly complete your tasks with items guaranteed to work with your PDS applications

- Checks
- Check readers
- Labels
- Contribution statements
- Tax forms
- Barcode scanners
- PhoneTree

File Backup & Recovery with LiveStor® gives you peace of mind with remote, automatic backups of your most valued files.

- Schedule automatic backups
- Monitor your jobs from anywhere online
- Backup any type of data file
- Restore your data to its original integrity

Implementation helps you take your projects from initial assessment and planning to installation and training, then launching and follow-up to help your parish, school, or diocese achieve its goals.

Consulting and Training Services help you fully understand and utilize your PDS software.

- Onsite consulting and training
- Traditional classrooms
- One-on-one Web-casts
- Online self-paced videos

Data Services offers a variety of data-related services dedicated to optimizing your time.

- Data conversion
- Data repair
- CASS certification
- Custom reports
