

- ✓ *Anytime, anywhere access*
- ✓ *Connecting program directors, caregivers, and parents online*

Daycares Preschools Learning Centers After School Programs

Join childcare facilities from across the country that are successfully using HeadMaster to manage all their administrative and communication needs. HeadMaster OnDemand for Childcare is a Web-based solution that uses one integrated database to empower and connect your organization.

This all-in-one solution package is customizable to meet your unique needs and includes the following feature-packed benefits for you and your entire organization.

- Caregivers can **enter attendance and behavior notes** from anywhere with Internet access
- Parents can **Check In / Out children** via a keyboard or scanned ID card and **automatically record attendance**
- Bookkeepers and staff can **access and update tuition accounts, registration, pre-enrollment and enrollment records** from any location
- Teachers can access all their relevant data and **work from home or on the road**
- Your IT maintenance is eased with **automatic upgrades, data backups, and security patches**
- Quickly organize and record payments and **monitor outstanding accounts**
- Apply **general or individual child notes** to view during Check In / Out
- **Quickly prepare class schedules** and curriculums, automatically promote students
- **Manage multiple families** per child and associate individual activities
- Use over **100 customizable reports** plus customize fields and grids to meet your needs
- **View and report on all correspondence** printed or emailed, mass or per child
- Get peace of mind and save time by **automatically ordering background checks** within your HeadMaster program with SecureSearch**

It's easy to get your childcare facility started on HeadMaster OnDemand today!
