

St. John's Cottage Meeting Summaries

May 2006

Communications

Although Communications can be a very subjective topic, tangible suggestions are made about the newsletter, the bulletin, and their contents (including a "Dear George" column of Q&As). Further, people express a strong preference to have posted sign(s) giving the location and time of meetings.

Equally spread among "Changes" and "Dreams" were desires for more information about financial issues, and as well as overall improved communications with congregation and community.
