

St. John's Cottage Meeting Summaries

May 2006

Music

The music program had a large number of positive comments and is an important and appreciated part of the worship service. The outdoor chimes are also appreciated. Most of the comments were positive; however, there were some concerns expressed, and some of the concerns contradict each other.

Some specific concerns expressed include:

- Hymns – want more traditional hymns, want more variety of hymns, want more contemporary hymns, more hymns, and fewer hymns
- Choir robes are too hot (see need for more cooling in Trustees section)
- A desire for the handbells to perform more frequently
- A desire for more music opportunities for children
