

## **St. John's Cottage Meeting Summaries**

**May 2006**

### **Trustees**

Strong sentiment was expressed that members like the church facilities. However, there were concerns that we make better use of the facilities. Numerous areas where improvements are desired are as follows:

- Parking - there is a desire to have more parking, parking for handicapped, parking for the elderly, parking for visitors and that parking be enforced.
- Make better use of the facilities, pay attention to outside, provide more kitchen storage, etc.
- Improve the sound system
- Improve the Heating, Ventilation and Air Conditioning (HVAC) systems, including the Sanctuary being too cold, and a need to improve cooling for the choir.
- Bus comments - more drivers, new bus, bus with bathroom for children's programs, and a more dependable bus
- Establish a Columbarium
- Purchase additional adjoining property
- Make it easier for the elderly or handicapped to get into the church
- Providing speakers in the nursery to hear the service.
