

St. John's Cottage Meeting Summaries

May 2006

Worship/Spiritual Development

The Worship/Spiritual Development program had a large number of positive comments and is an important aspect of St. John's. Most of the comments were positive, particularly regarding the traditional worship services and the availability of services – e.g. 11:00 AM, 8:45 AM, and Christmas.

Some specific concerns expressed include:

- Services – Expand with additional services available, try contemporary services, have a coffee fellowship, add Thanksgiving and Lenten services
- Communion – More communion, faster, and during the week
- Format – Many like traditional, but some desire more contemporary services
- Youth – Contemporary service for youth, more college age and youth involvement, and continue children's worship
