

## PERSONAL IMPROVEMENT VOLUNTEER HANDOUT

We are the \_\_\_\_\_ for the organizations we lead.

Everything is going to \_\_\_\_\_ with our ability to lead effectively.

Success has a tendency to breed a lack of \_\_\_\_\_.

What you \_\_\_\_\_ you will \_\_\_\_\_.

We need to be people who are \_\_\_\_\_.

*If we're going to be those kinds of people, we have to be the kinds of people who are consistently checking some critical components of our own lives.*

We need to self-evaluate our \_\_\_\_\_ with God.

*Are we consistently spending time with God?*

Are we growing through His \_\_\_\_\_, through talking to Him intimately through \_\_\_\_\_, through \_\_\_\_\_, and through having \_\_\_\_\_ with other believers?

- Do you have a set-aside time as a leader when you evaluate yourself spiritually?
- Do you have a set-aside time as a leader when you are evaluating how you're doing relationally?
- Is there a set-aside time for you to evaluate how you're doing physically?
- Do you have a set-aside time when you evaluate how you're doing financially?
- How are you doing emotionally?
- How are you doing from an intelligence standpoint?

People will \_\_\_\_\_ you.

*They grow because of what you're \_\_\_\_\_.*

You should model someone who is in constant \_\_\_\_\_ and \_\_\_\_\_ mode, and someone who sees the need for your own \_\_\_\_\_.
