Lynn,

Here is the chart we talked about that compares tuition at the state institutions over a five year period.

Subject: FW: Tuition Increases

Dear Fred,

The attachment (which came from CHE) lists tuition increases at South Carolina public institutions. It shows that FMU remains the most affordable of the senior institutions (with the exception of USC Beaufort, which doesn't really count) and has had the lowest percentage increase in tuition during the last few years.

I thought you might find this interesting.
