Subject: Nursing Faculty Credentials at FMU

Lynn,

Currently, in the upper division nursing major, 23% of the program is being taught by doctorally prepared faculty. Nevertheless, the program meets the requirements for faculty educational preparation of the State Board of Nursing of South Carolina as well as the national accrediting agencies.

The department is recruiting and will preferentially hire doctorally prepared nurses who additionally meet our experiential requirements. The addition of even one faculty member with the terminal degree will bring us into compliance with this standard.

Sylvia R. Lufkin
Department Chair, Nursing
