

PDS SUMMER WORKSHOP SURVEY

Attention all PDS Users:

If there are enough people interested in training, we will arrange for a certified Parish Data Systems trainer (hopefully Paul Goldsworthy) to come to Louisville during the summer and conduct training workshops. Class selection will be based on having enough people interested to support the cost of training expenses.

Please complete the information below and return to me no later than February 29, 2008:

I (we) would be interested in attending the following training:

2 day session Church Office Management (census/contribution) _____

1 day Ledger _____

1 day Facility Scheduler _____

1 day School Management _____

1 day report session (applicable to all PDS software) _____

PDS has a daily rate plus all travel expenses. If we can get 25 people in a session, we can probably keep the cost in a reasonable range that is affordable to most all parishes and/or schools. Attending any of these classes is very beneficial particularly in light of sending an employee to Phoenix that would involve the travel expense in addition to the class fee. The archdiocesan Finance Office and IT office would like to incorporate some training for DioOffice and DioView training for our archdiocesan employees and this would further help spread the cost.

If we receive enough positive response, we will be in touch with PDS to make arrangements.
